React Native

## WORK EXPERIENCE

Apr-2023-Present

### React Developer

#### Devstree It Service Pvt.Ltd

- Proficient in front-end development using React, Redux, and Next.js, with a focus on creating responsive and dynamic user interfaces.
- Extensive experience in back-end development using Node.js and Express.js, employing RESTful API design principles to build scalable and efficient server-side applications.
- Skilled in database management with MongoDB, including data modeling, query optimization, and integration within the MERN (MongoDB, Express.js, React, Node.js) stack.
- Comprehensive knowledge of full-stack development, seamlessly integrating front-end and back-end technologies to deliver end-to-end solutions.
- Well-versed in mobile application development using React Native, ensuring a consistent and smooth user experience across various platforms.

## PROJECT

Sep 2023-Oct 2023

### Urenox

**Technology Used:** React, Redux, Ant Design (AntD), API Integration, Responsive Design, Language Integration

Urenox, an innovative web application reminiscent of Netflix, leverages the power of React and Redux. Utilizing the Ant Design (AntD) library, the project achieves a polished and user-friendly interface. Seamless API integration, responsive design, and multilingual support collectively contribute to an engaging and accessible streaming platform, showcasing your proficiency in creating dynamic and visually appealing web experiences.

### Saas Apex

Oct 2023-Nov 2023

**Technology Used:** React, Redux, Material UI, API Integration, Responsive Design

Saas Apex, powered by cutting-edge technologies including React, Redux, and Material UI, is a comprehensive web application tailored for managing mechanics and their services.

### Silver Oak University Employee Management System

Dec 2023--Jan 2024

**Technology Used:** React, Redux, Material UI, Node.js, Express, MongoDB

The Employee Management System for Silver Oak University is a robust application built with cutting-edge technologies. Employing React and Redux for the frontend, along with the sleek Material UI library, the user interface is both intuitive and visually appealing.
